

▶ Your life in their hands

If you became ill or injured and unable to work, how would you pay the bills?

The chances are you haven't thought about it – not surprising really; if we all spent our lives worrying wouldn't life pass us by?

Sadly, the reality is that even if you make it through all the red tape, the most you could receive from the government is £88.45* per week - that's less than the average weekly grocery shop for a family of 4**.

Fortunately there's an alternative, and it's cheaper and easier than you'll think. Income protection will pay you a monthly benefit if you're too ill to work, so you can concentrate on getting better without worrying about money.
